LOCATION: Bengaluru, Karnataka

RE: Application for **IT Professional / Software & Systems Associate**

AVAILABILITY: Immediate Joining

Statement of Purpose

Dear Hiring Team,

I am writing to express my strong enthusiasm and readiness to join your esteemed organization as an **IT Professional & Software Development Associate**. Having recently graduated with a **Bachelor of Computer Applications (BCA) with High Distinction (8.65 CGPA)** from Bangalore City University, and equipped with practical hands-on experience in full-stack web engineering, database architecture, and digital operations, I am eager to apply my technical problem-solving capabilities to your engineering and technology initiatives.

During my academic and project career, I developed interactive software systems—including a **3D Virtual Interior Design Simulator** built with responsive web technologies—and acquired a solid foundation in **Core Java, SQL, Object-Oriented Programming, and Relational Database Systems**. Furthermore, my professional background in healthcare operations and counseling at IVF Access has sharpened my discipline in high-precision data workflows, system compliance with **Tally ERP**, and analytics reporting in **Microsoft Power BI and Advanced Excel**.

Core Technical Strengths & Operational Value

- **Full-Stack Web Engineering:** Proficient in HTML5, modern CSS3 animations, JavaScript (ES6+), and responsive web architectures with intuitive user interfaces.
- **Core Java & Database Architecture:** Strong grounding in Object-Oriented Programming principles, data structures, SQL querying, and relational database management.
- **Data Analytics & Power BI Reporting:** Hands-on experience structuring datasets, designing visual KPI dashboards, and extracting actionable business intelligence.
- **Communication & Professional Collaboration:** Proven cross-functional collaboration and empathetic client counseling skills, ensuring clear technical communication and rapid team adaptability.

Conclusion & Availability

I am genuinely motivated to bring my technical competence, fast learning agility, and dedicated work ethic to your technology team. I welcome the opportunity to interview with your team and confirm that I am prepared for **immediate joining** in Bengaluru.

Sincerely,

Raksha Shetty
